

Excellence in finishing

XL Series

Automatic precision folder gluer

High-speed Speedwave system

With fully automatic adjustments from the touchscreen

The high-speed automatic XL series for intelligent folding is another Rolam masterpiece.

It can store the data of different job formats, allowing them to be positioned automatically and increasing efficiency. The XL is controlled by servomotors, increasing precision.

**Fast, precise
changeovers
increase
profitability**

LC Series

Automatic high-speed folder gluer

The LC series automatic gluer is ideal for straight-line boxes, crash-lock (auto-bottom) boxes, double-flap boxes, and 4- and 6-corner boxes. It can run everything from small to large formats, with great precision in fast job changeovers, to meet the demand of all packaging companies, commercial printers and finishers.
